ICAP 4.2

WALL-MOUNTED FILTER UNIT FOR WELDING FUMES AND DUST FROM GRINDING / THERMAL CUTTING

Use

Extraction of welding fumes and dust from grinding, sanding and manual thermal cutting

Construction Applications

Powder-coated steel

Stick electrode

PLASMA GRINDING

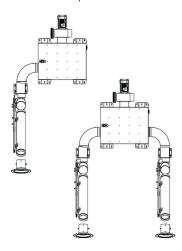

MAIN FFATURES

The range of wall-fitting filter units ICAP 4 provides maximum performance in a most compact cabinet and is therefore ideal for indoor installation.

The cartridge filters and the automatic cleaning function make this unit ideal for the extraction of fumes and micro-dust with medium concentrations, such as in MMA or MIG welding processes or in sanding.

VFRSIONS

ICAP 4.2 – suited for 1 extraction point ICAP 4.2 – suited for 2 extraction points

STRUCTURE

Supporting structure made of painted sheet metal.
Filter inspection door with double compression handle.
25-liter dust collector bin with hermetic closure.

The plug-fan extractor is incorporated in the unit. Discharge hole on the right or left side according to the installation requirements.

FILTERING SECTION

Filtering section including, depending on the version, 1 or 2 high efficiency cartridge filters made with a patented compound of self-extinguishing cellulose and external layer of nanofibers. The cartridges are also suitable for applications with hot pollutants (FR – Flame Retardant technology).

The automatic cleaning

the cartridges.

system by compressed air

guarantees a long duration of

<u>Otpional</u>: activated carbon filter for the filtration of VOC volatile organic compounds.

EXTRACTION

A plug-fan system made with an impeller with backward curved blades in welded and painted steel ensures excellent resistance and high mechanical characteristics.

CONTROL PANEL

The digital control panel (for installation on the wall) is complete with thermal protection for the electric motor and with a pcb to manage all machine data such as cyclic cleaning of the cartridges, filter clogging alarm, safety micro switch on the inspection door, operating hours, alarms, etc. A phase sequence relay is provided to establish the correct electrical wiring and direction of rotation of the impeller. Complete electrical wiring to the machine and its components: just connect the mains supply cable to the appropriate terminal block and the unit is ready to start.

FILTRATION

ICAP 4.2

Code	Description
ICAP4C1100AA0	Wall-fitting filter unit ICAP 4.2 suited for 1 articulated arm - Filtration efficiency BIA"M" >99%
ICAP4C1300AA0	Wall-fitting filter unit ICAP 4.2 suited for 2 articulated arms - Filtration efficiency BIA"M" >99%

REPLACEMENT FILTERS

Replacement filters	Code	Description
	RFOICAP420001	Set of filters for ICAP 4.2 incl.: 1 cartridge filter
	RFOICAP420002	Set of filters for ICAP 4.2 incl.: 2 cartridge filters
	RFOICAP420003	Set of filters for ICAP 4.2 incl.: 1 active carbons filter 20 kg
	RF0ICAP420004	Spare parts for ICAP 4.2 incl.: 1 dust collector bin

ACCESSORIES

ARTICULATED ARMS

Articulated arm	Code	Description
ARMOFLEX	ARMOFLEX160201	ARMOFLEX articulated arm - Ø 160 mm - L. 2000 mm
	ARMOFLEX160301	ARMOFLEX articulated arm - Ø 160 mm - L. 3000 mm
	ARMOFLEX160401	ARMOFLEX articulated arm - Ø 160 mm - L. 4000 mm
ARMOTECH	ARMOTECH160201	ARMOTECH articulated arm - Ø 160 mm - L. 2000 mm
	ARMOTECH160301	ARMOTECH articulated arm - Ø 160 mm - L. 3000 mm
	ARMOTECH160401	ARMOTECH articulated arm - Ø 160 mm - L. 4000 mm

WALL BRACKETS

Wall bracket for centralized plant	Code	Description
	CWB02018000000	Wall bracket for connection to flex hose Ø 160 mm

EXTENSIONS FOR ARMS

PAB extension for articulated arms	Code	Description
A	PAB16000001000	Extension PAB 1 for extraction arm Ø 160 mm - L. 1000 mm
HIIO STITUSE	PAB16000002000	Extension PAB 1 for extraction arm Ø 160 mm - L. 2000 mm
	PAB16000003000	Extension PAB 1 for extraction arm Ø 160 mm - L. 3000 mm
	PAB16000004000	Extension PAB 1 for extraction arm Ø 160 mm - L. 4000 mm

FITTINGS

Adapter for flexible hose Ø 160 mm on wall bracket	Code	Description
	ACCIBS00000RF1	Adapter for connection of hose Ø 160 mm on bracket Ø 160 mm
